Eventscapes

Transforming Place, Space and Experiences

Graham Brown

Eventscapes: Transforming Place, Space and Experiences directly examines the interrelation between events' simultaneous dependence on and transformation of the places in which they are held.

This will be invaluable reading for those studying events and the environment. Adopting a multidisciplinary approach, it also draws on geography, urban and cultural studies, image studies, architecture and design, environmental psychology, and event management, and will be of use to a broad academic audience.
